

LG215 Sealant Tape

■ Product description

LG215 is medium temperature sealant tape used for vacuum bag process. It can be used in oven and autoclave up to 200°C (392 °F) .

LG215 is the ideal sealant tape for standard cures up to 180°C (356 °F) and 7 bars (100 psi). Its controlled tack helps in getting high level of vacuum within a short time but it also permits to reposition bagging film during the vacuum bag process.

Material compatible with most laminate (including composites tools) and film materials.

For optimum results, tape must be allowed to cool below 35°C (95 °F) before stripping from mold surface.

■ PROPERTIES

Maximum Use Temperature	401 °F (205°C)
Colour	Light blue
Solids	100%
Flammability	Non flammable

■ AVAILABILITY&PACKAGING

Standard Size	12.5mm*3.5mm*12m (1/2" x.125" x 40')
Standard Box Contents	24 Rolls
Also Available In Cord	20 Boxes In One Pallet

■ Notes

Storage: Tape must be stored flat in original box at temperature between 5°C --25°C

Shelf life: 12months

LG215 is non toxic, non irritant, and non injurious to skin
