

# Chameleon Quad –

Your entry-level model in steady growth

## Chameleon Quad – The new compact handling system.

Automation on smallest space with highest efficiency. This distinguishes our new *Chameleon Quad*. This "power tower" gives you the ability to fully automate your complete tool and mould manufacturing technologies in just 4 sqm. The *Chameleon Quad* is your economic step in automation and also applicable as pallet changer.

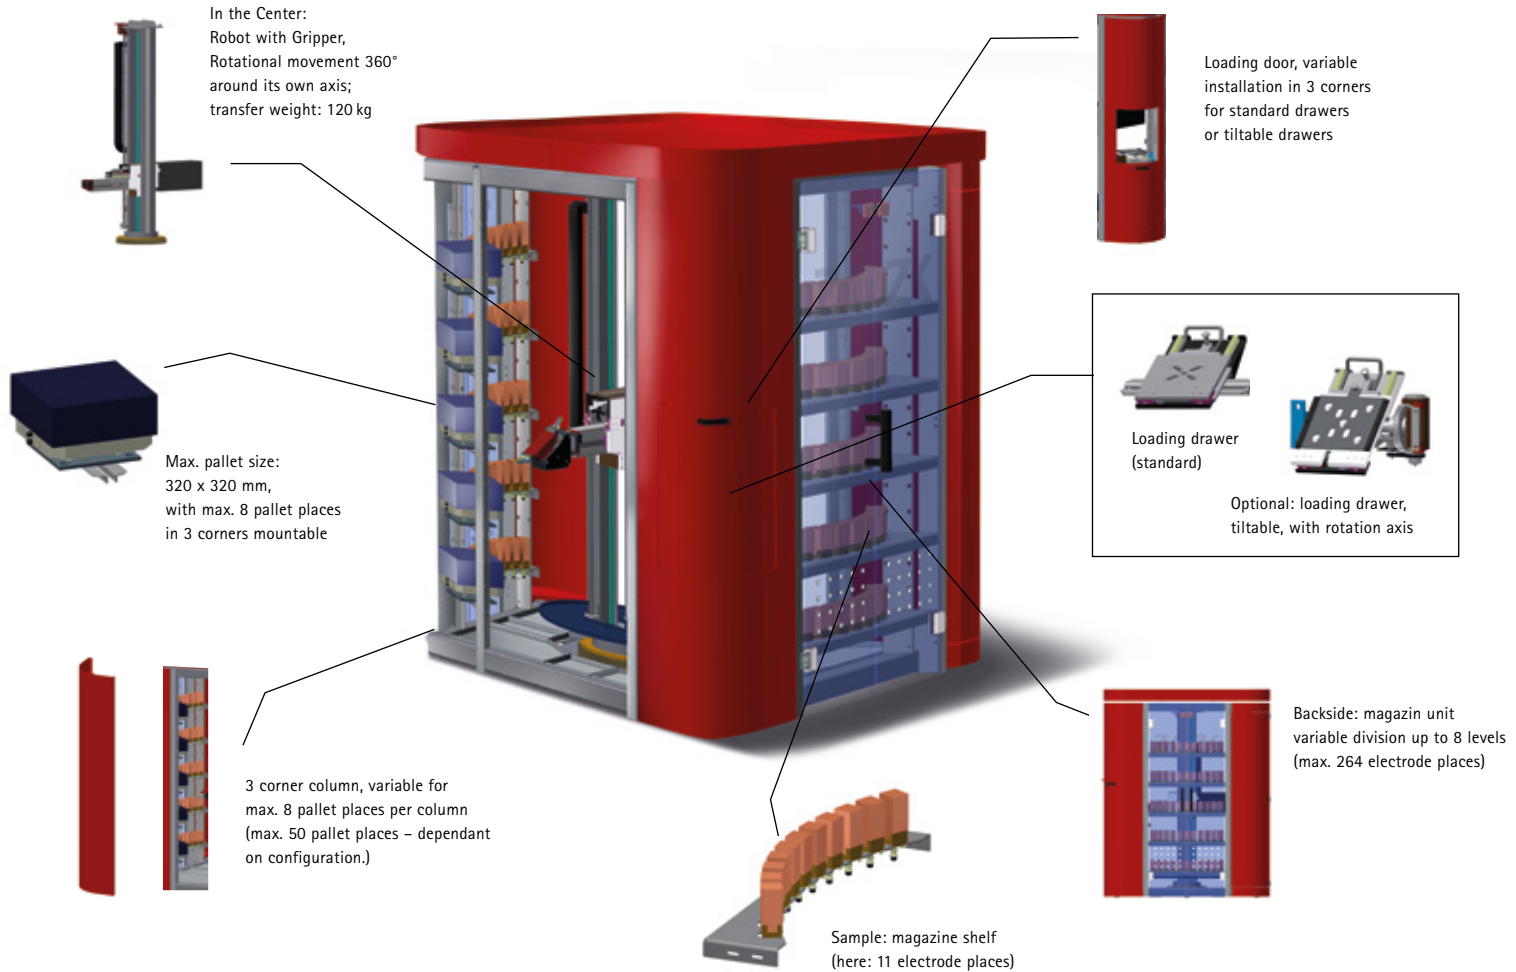

### Your benefits:

- modular and flexible connection of your machines up to three sides
- small space for efficient space-saving work
- individual mounting of magazines (up to max. 264 electrodes)
- pallets in 3 corners optionally placeable (max. 50 pallets)
- Plug and Play solution
- automatical flow of data and tools
- maximum efficiency at highest process reliability
- "unlimited" expansion possibilities in connection with *Chameleon*

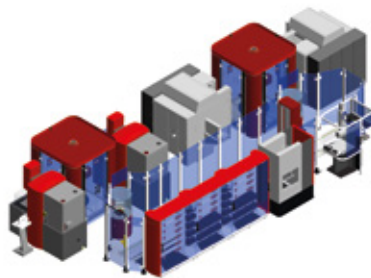

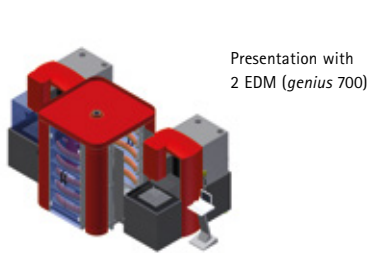

# Chameleon Quad – High Performance in 4 m<sup>2</sup>

The modular design allows for custom connection of all technologies in tool and mold making.

*Chameleon Quad* is also applicable as single pallet changer Here the *Chameleon Quad* in detail.

## Application samples

## Technical specifications

W x D x H	2026 x 2026 x 2575 mm
Weight	1500 kg
Gripper stroke	1200 mm
Max. distance from outer edge of Quad to center of clamping system	900 mm
Max. transfer weight	120 kg
Max. weight of electrodes	15 kg (Single gripper) 8 kg (Double gripper)
Max. pallet size	320 x 320 mm
Max. pallet place	50 pcs.
Max. electrode places	264 pcs.
